

Fifty Shades of Consent

*Just like on page 235,
but we could skip the part
with the pickle relish.*

How do you get consent?

- Verbal consent is given before doing BDSM or engaging in a BDSM relationship.
- Consent is given only within the limits set before by the participants.
- Consent can be withdrawn during the activity by anyone involved.

Your consent is violated if:

- Your pre-negotiated limit is ignored.
- Your safeword or safesign is ignored.
- You are manipulated or coerced into consenting.

If it's not consensual
then it's not BDSM!
